## Top Honeymoon Destinations for 2021

WRITTEN BY SIANI ABRAHAMS

There's no greater gesture of love, unity and promise than celebrating your life partnership with an eco-luxe honeymoon at an idyllic Regenerative Resort at one of our top honeymoon destinations for 2021.

Spend your first honeymooning days together relaxing in an overwater bungalow with the sound of warm tides softly lapping below, treasure intimate moments over farm-to-table meals amidst glowing lanterns and treetop views, or venture into rugged tropical jungle and excite in a quest to spot local wildlife. A stay in unspoiled paradise is truly unforgettable, an experience honouring special guests with once in a lifetime travel that leaves as meaningful an impact on you as on the environment and community you visit. If you're looking for the ultimate luxury getaway, share your new beginning with a regenerative destination.

### Kokomo Private Island (Fiji, Oceania)

A jewelled paradise in the glistening crown of Fiji, Kokomo Private Island offers a secluded honeymoon retreat for newlyweds. Swoon over seamlessly blended luxury Fijian and sustainably designed villas, gaze across an endless horizon of ocean, relax in grandeur and bask in the Fijian Kokomo family's warmth. A stunning sunset paints a romantic backdrop for indulging in seasonal farm-to-table and Dock to Dish Fijian feasts. Explore the world's fourth largest reef, the Great Astrolabe Reef, with diving, snorkelling, kayaking and a variety of sea activities, or choose to marvel at colourful coral and marine life through a glass bottom boat. Kokomo Private Island is the ultimate luxury island honeymoon getaway. An exclusive one-on-one experience with the inhouse marine biologist awaits when you book through Regenerative Resorts.

*Rates start at \$1,995 per night. Schedule a complimentary travel consultation with Regenerative Travel [here](#) to learn more about [Kokomo Private Island](#).*
